100% Natural Eucalyptus Fibre Sleep Surface Ideal for sensitive skin.

with **TENCEL®** An increasing number of people suffer from sensitive skin, provoking development of alternative textile materials. The special properties of the TENCEL® fibre make this ideal for people with sensitive skin. Textiles are perceptibly gentle due to the smooth fibre surface; they feel cooler, absorb more moisture and reduce bacterial growth. TENCEL® is naturally pure and does not contain any pesticides and agricultural chemicals.
