- Unique Breathe-A-Vent™ (Patent Pending) for added comfort

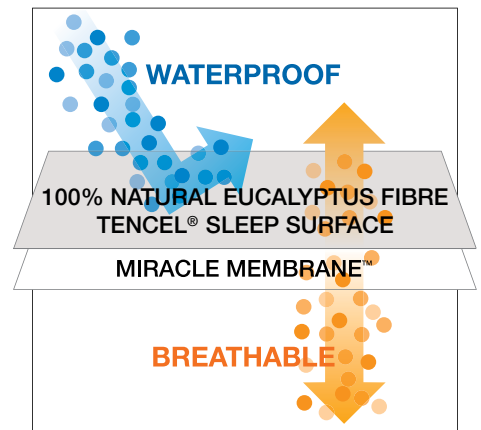

100% Natural Eucalyptus Fibre Sleep Surface
with TENCEL®

Ideal for sensitive skin.

An increasing number of people suffer from sensitive skin, provoking development of alternative textile materials. The special properties of the TENCEL® fibre make this ideal for people with sensitive skin. Textiles are perceptibly gentle due to the smooth fibre surface; they feel cooler, absorb more moisture and reduce bacterial growth. TENCEL® is a Eucalyptus-based fibre, is naturally pure and does not contain any pesticides and agricultural chemicals. TENCEL® has received numerous awards for its environmentally friendly manufacturing process.
